

BORDER TRUST

WORKPLACE GIVING PROGRAM *- Information for Employers -*

Every day, local people give back to the area they love by supporting not-for-profit community organisations and causes, through the region's own Community Foundation, Border Trust.

By establishing a Border Trust Workplace Giving Program in your business, you enable your employees to make donations to support the local community through your payroll system. Because Border Trust has Deductible Gift Recipient status, your employees receive a pre-tax payroll deduction from their donation.

As their employer, you may also like to make regular donations or perhaps match what your employees raise and foster a real sense of camaraderie and team work.

GET IN TOUCH

Border Trust can present the concept to you in more detail and explain how to establish a Workplace Giving Program. We will also outline the work we are doing to make a difference in our community so you know where the funds are going.

EASY TO ESTABLISH

Border Trust makes establishing a Workplace Giving Program easy by working with you and your payroll officer every step of the way. We provide detailed information for you and your employees, including any relevant forms for completion and ATO guidelines. We also meet with your employees to present the concept and encourage them to participate.

STAY IN TOUCH

Stay in touch with us to see the difference donations are making right here where you live via our website, e-newsletter or social media channels. You and your employees may also like to attend our annual BigGive presentation where we award grants and present inspiring stories from the previous year's recipients.
